BUILDING A MINDSET FOR INVESTING

Unit Trusts and PRS offer a diversification strategy for investors **CEO Suite**

here's a saying in investment, "The biggest risk of all is not taking one." It's been an interesting two years in the investment arena, when a sprinkling of the population woke up to realise they were home-bound in a pandemic, cash rich with limited spending options and so they took to the stock market and other alternative investing streams to try their hand at growing their money.

This was great, but many dropped out eventually as routine kicked back in once normalcy resumed.

The level of awareness on the pertinence of investment is still alarmingly low among the Malaysian public. The Federation of Investment Managers Malaysia (FIMM) conducted an Investors' Financial Literacy Survey on Unit Trusts Schemes (UTS), Private Retirement Schemes (PRS) and Retirement Planning in 2021 and found that one of the key reasons people shied away from investing in these instruments was 'limited knowledge.'

The results of the survey also indicated that many respondents had qualms about their ability to meet retirement goals.

"Awareness has not trickled down to the masses. We have strived to build the foundation over the past two years, but there is still a lot to be done," said Kaleon Leong Rahan, FIMM's CEO. FIMM is striving to grow awareness towards investing in UTS and PRS among more Malaysians

"

In a bid to engage the public and impart financial literacy, FIMM has created a traction on social media providing the 101 basics on UTS and PRS investing. However, the organisation is now banging on upping the ante in education and awareness, aligned to the rising sophistication and investment understanding of a segment of investors and public.

"Our last annual convention in October covered contemporary issues post-pandemic. We had speakers drive important conversations on the state of the economy post-pandemic and the value of diversification and managing your portfolio towards achieving investment goals,"

"

"

I hope FIMM's efforts can contribute to at least 30 million unit holder accounts by 2030. Kaleon explained.

The session also touched on fees and charges imposed by agents, alternative investment options and discussed the types of investment scams in the market today.

At the current level of 24 million unit holder accounts, back of the envelope calculations suggest there are about 8 million individual investors in the country, assuming each investor holds about three accounts, this translates to an investor population of about 25% only.

"This remaining 75% offers an expansionary opportunity for the unit trust industry."

DRIVING INTEREST IN UTS AND PRS

"There are three key reasons driving the investment appetite for UTS and PRS. The first is to have regular income or retirement savings. This really is a big driving force because many people have started to realise they do not have enough for retirement," Kaleon pointed out.

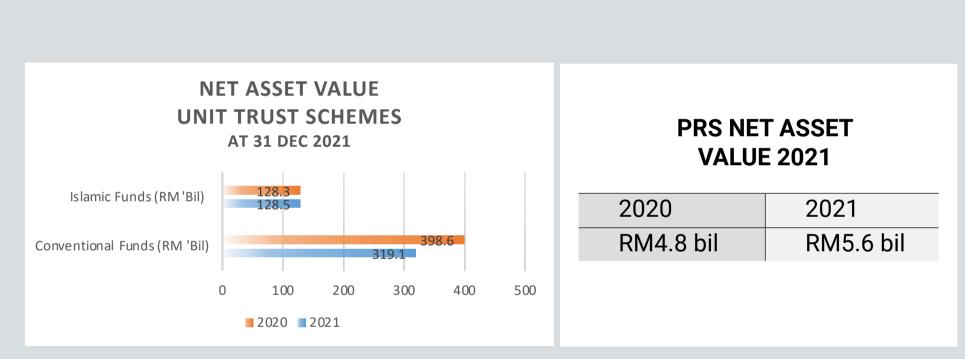

He cited the second reason as seeking fund management expertise. People who want to invest may not necessarily have the skills or knowledge to do so, but through UTS, they get fund management expertise at a minimum cost.

"Some people do debate that it is expensive but this isn't so. Especially when you compare it to the risks and costs involved in yourself learning through trial and error," he stressed.

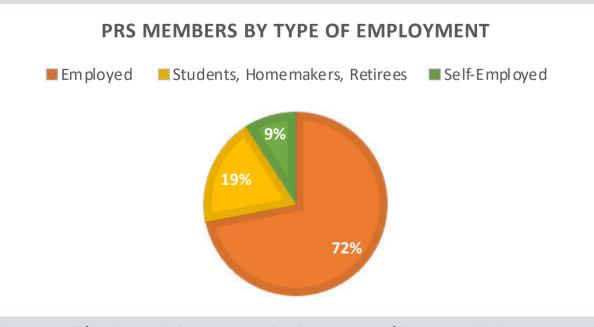

WE DID A SURVEY ON THE FEES AND CHARGES TWO YEARS AGO AND IT HAS ACTUALLY COME DOWN. APART FROM FEES AND CHARGES, INVESTORS SHOULD BE AWARE OF THE SERVICES EXPECTED FROM THEIR CONSULTANTS. Lastly, it's the simplicity in investing that is a draw. It can be done via agents or via digital platforms. Investment funds can also utilise EPF contributions, which add diversity to an individual's investment portfolio.

Kaleon, who was recently appointed as a Board Member of the International Investment Fund Association (IIFA), noted that investment instruments are getting increasingly innovative and simple to engage in. Progression in shifting towards an investing mindset is when excess funds are invested to generate returns. According to the Securities Commission's Annual report 2021, UTS as of 31 December 2021 recorded a net asset value of RM526.9 billion, a 1.4% increase from the previous year.

In terms of PRS, the report stated that Net Asset Value (NAV) in 2021 was RM5.6 billion, up from RM4.8 billion in 2020. The report found that investment in PRS was most prevalent among those aged 30 to 39, at 34%, while 23% of PRS investors were aged below 30 years. Findings revealed that only 9% of PRS investors were self-employed, while students, homemakers and retirees made up 19% of the investors. Nearly three quarters were employed individuals.

Kaleon disclosed that FIMM intends to empower the youth with better financial literacy through programmes conducted at school, colleges and university levels, while another key area of focus was the B40 community.

"We are working with a few government agencies to explore untapped potential. At the same time we are cognizant of the need to remain empathetic towards their plight as this community emerges financially scathed by the effects of the pandemic," he said.

THE IMPETUS TO INVEST

"In today's economy, it's not about having money, it's about growing it," reminds Kaleon.

"In the past, it was always about investing for a rainy day, but now, with high inflation and rising costs, by the time you save up it will rarely suffice to get what you want," he noted.

An important factor in investing is to be well researched - to know your risk appetite and make sure it commensurates with the fund you choose, and most importantly, to read the offer documents that highlights the risks, fees and how the fund works.

"Caveat emptor, buyers beware. We have noticed that a lot of scams happen because the investors do not bother to double check or read about their investments," he pointed out.

With digitalisation, Kaleon said it was very easy to access investment portals and monitor their own investments.

A growing interest in investing today is in ESG funds. ESG assets tend to perform with more resilience. At the height of the Covid-19 crisis, these assets deteriorated at a much lower rate than other assets as noted by the Asian Development Bank Institute. "Awareness for ESG has gotten wider. Two years ago there were about 20 ESG-compliant funds, but this year there are about 30. By 2030, we are looking at about 100 funds available in the market for investors," Kaleon informed.

In 2020, regulatory bodies have prioritised the growth of Sustainable and Responsible Investments (SRI) and leverage on the Islamic Capital market

to drive SRI. The Securities Commission will be developing the Guiding Principles on SRI Taxonomy for the Malaysian capital market, a key pillar into the nation's sustainable agenda to transition into a low carbon economy.

In terms of FIMM's involvement in the ESG-sphere, it participates in the Product and Innovation sub-committee of the Joint Committee on Climate Change (JC3), a collaboration between Bank Negara Malaysia and Securities Commission Malaysia. Additionally, FIMM is also on the International Investment Funds Association's (IIFA) ESG working group. These efforts enable FIMM to learn and observe from domestic and jurisdictional developments.

GROWTH FOR 2022 LIKELY TO SURPASS EARLIER **FORECAST OF** 6.5% TO 7% - PM

A ccording to Prime Minister Datuk Seri Anwar Ibrahim, who is also the Finance Minister, Malaysia's gross domestic product (GDP) growth for this year is very likely to exceed the earlier projection of between 6.5% and 7%. He said that sentiment remains positive at the end of 2022, with encouraging economic performance following the reopening of the economy amid the transition to the Covid-19 endemic phase. He noted during the tabling of the Consolidated Fund (Expenditure on Account) Bill 2022 and motion for interim development expenditure estimates for 2023 in the Dewan Rakyat that the unemployment rate also dropped to 3.6% in October 2022. However, labour participation has not returned fully to the level before the Covid-19 crisis when the unemployment rate was 3.3%. The jobless rate for youth below 25 years old is still worryingly high at 10%.

He said the entanglement of geopolitical conflicts has led to global inflationary pressures and weakened economic growth, and the surge in commodity and food prices has adversely impacted Malaysians in terms of cost of living. He noted that the International Monetary Fund has forecast that global economic growth would slow from 3.2% in 2022 to 2.7% in 2023. To deal with this significant global impact, the federal government is adopting a whole-of-nation principle. All quarters should join the government in formulating a comprehensive approach. He added that the wealthy and conglomerates that have raked in huge earnings due to rising commodity prices and government subsidies must also contribute towards improving the people's wellbeing, especially the B40 and M40 groups and petty traders. He said Padiberas Nasional Bhd, for example, has agreed to contribute RM10mil this year and RM50mil next year to help poor paddy farmers. The government, will spare no effort to strengthen the economic indicators, restore investor confidence and rebuild the country.

FRIDAY DEC 23 2022 Invest 130

The PM also said he was touched by the reception and support received from other countries that have extended their commitment and assistance to explore potential trade and investment opportunities with Malaysia. For example, His Majesty the Sultan of Brunei (Sultan Hassanal Bolkiah) has offered to have the Brunei Investment Agency explore new investments in Malaysia and hence benefit both countries. He added the International Trade and Industry Ministry and Finance Ministry have been tasked to improve the facilities for business operations and raise the quality of investments in order to generate high-income jobs for Malaysians, especially the youth. At the same time, the administration of foreign workers has been centralised at the Home Ministry to ensure that industry players can flourish, particularly those in the commodity, construction and tourism sectors.

BURSA MALAYSIA AND RAM COLLABORATE ON A NEW DEBT FUNDRAISING PLATFORM

Bursa Malaysia Berhad and RAM Holdings Berhad entered into a shareholders' agreement (SHA) on Thursday (22Dec) to develop a new debt

fundraising platform that will facilitate listed and unlisted small to midsized companies tap into a new pool of capital outside of traditional wholesale markets, offering a new avenue and greater flexibility to these companies looking to raise funds. The platform provides for a 'bond-like' experience allowing investors to invest in investment notes with credit and ESG ratings as easily as they would invest in shares in a transparent and regulated market, facilitating informed investment decisions.

FRIDAY DEC 23 2022 **Invest** | 31

Pursuant to the terms of the SHA, the joint venture shall be carried out through a new company (Newco) to be incorporated under the Companies Act 2016, whereby Bursa Malaysia will hold a 51% equity interest and RAM will hold the remaining 49%. Newco will submit an application for registration under the Securities Commission's (SC) revised Guidelines on Recognized Markets (RMO) which was recently issued on 15 November 2022.

According to Datuk Muhamad Umar Swift, Chief Executive Officer of Bursa Malaysia, this agreement marks a significant milestone in Bursa Malaysia's journey to become a multi-asset exchange. The collaboration with RAM will broaden fund raising avenues for both PLCs and unlisted entities – specifically enabling better access to both conventional and Shariah investment notes. It would be able to provide new fixed income investment opportunities to both retail and sophisticated investors. This will further create an alternative fund-raising avenue for businesses which are currently underserved in this challenging environment and for those that are not yet ready to list on the Exchange.

According to Chris Lee, Group CEO and Executive Director of RAM, to enhance transparency in the ecosystem of debt-based financing and investment, RAM will contribute its expertise in credit rating, ESG ratings and fixed income pricing.

ANOTHER RPT BY GENTING MALAYSIA

Devanesan Evanson

Chief Executive Officer, Minority Shareholders Watch Group

alking about Empire Resorts Inc, shareholders of Genting Malaysia Berhad (GENM) may vividly recall how a related party transaction (RPT) entered by the Company three years ago to acquire stakes in a loss-making casino operator resulted in billion ringgits being wiped out from its market capitalization. Recall that in August 2019, GENM proceeded with an RPT to acquire a 35% stake in the loss-making Empire Resorts from Kien Huat Realty III Limited (KHR) for US\$128.6 million cash. KHR is a family vehicle of Genting Group's head Tan Sri Lim Kok Thay. When news of the RPT was announced publicly, it was met with heavy criticism from the investing fraternity.

Recently, GENM said it is investing another US\$100 million (RM438.5 million) to acquire convertible preferred stock (Series F) in Empire Resorts from KHR, raising its investment in the New York-based gaming company to US\$624.4 million. This raised GENM's investment in the New York-based gaming company to US\$624.4 million. With the latest investment, GENM's stake in Empire will increase to 76.3% assuming the full conversion of all preferred stock.

Apart from the abovementioned, GENM had completed a few rounds of investments in Empire Resorts in the past via:

- On 19 March 2020, GENM announced the subscription of up to US\$40 million of Series G Preferred Stock of Empire Resorts
- On 11 September 2020, GENM announced the subscription of up to US\$150 million of Series L Preferred Stock of Empire Resorts
- On 19 March 2021, GENM announced the subscription of up to US\$20 million of Series L Preferred Stock of Empire Resorts
- On 12 October 2021, GENM announced the subscription of up to US\$150 million of Series L Preferred Stock of Empire Resorts.

In summary, GENM's investment in Empire Resorts includes indirect ownership of 49% common stock, 100% of Series G and Series L preferred stocks. Assuming full conversion of Series F, G and L preferred stock in 2030, GENM's effective shareholding in Empire Resorts will increase to 76.3%, from 49% currently. GENM said the acquisition of preference shares would enable them to "further capitalise on the growth prospects of Empire and reinforce its position in the New York State gaming market".

MSWG'S TAKE

MSWG had commented on the RPTs entered by GENM in the past. In our view, GENM should explain how it sees the investment as being in the best interest of the Company, although the investment is not subject to shareholders' approval. The audit committee should ensure that the RPTs carried out are not detrimental to the interest of the Company and its minority shareholders. We are unsure as to the type of discussions that must have taken place before the Board approved the RPT. It must have been a unanimous or majority decision to undertake the RPT.

Perhaps, the Board may want to explain further its investment in Empire Resorts since GENM would eventually hold a 66.6% stake in Empire Resorts (assuming full conversion of Series G and L preference stock into common stock after 31 December 2030), which would already enable it to consolidate the earnings of the US casino operator into its book. These explanations are crucial to address shareholders' concerns especially given the pessimistic outlook forecasted by analysts.

Some analysts see the further capital injection into Empire Resorts as a downside risk to GENM due to the lacklustre earnings outlook of Empire Resorts. The gaming operator is expected to be loss-making over the next five years, notwithstanding its improving financial performance. Besides, they are concerned that the issuance of up to three New York downstate full casino licences in 2023 might lead to the potential cannibalisation of Resorts World Catskills and Resorts World Hudson Valley (which are operated by Empire Resorts).

As of 30 September 2022, Empire Resorts registered earnings before interest, taxes, depreciation, and amortization (EBITDA) of US\$31.8 million. For the financial year ended 31 December 2021, GENM recorded a lower share of losses in an associate amounting to RM183.8 million compared to RM285.1 million in FY2020.

Hood life

GIVE ME A BOAT AND I'LL SAIL FOR A LIFETIME

you don't need to own a boat To enjoy the boating lifestyle

SZH16

or Clement Chua, Director of The Boat Shop Asia, it was instant love. His first boating trip out with a friend poignantly recorded the moment in his must-do-it brain sector, and immediately he pictured himself sailing off into the sunset with his wife.

Fortunately, his better half was game, and together they obtained the license but then they could not get a boat. No one rented out boats without a skipper, so a charter meant you could not test your skippering skills. Long story short, Clement and his wife decided it was time to bring the boating lifestyle to Singapore.

Today, Clement has played a significant role growing the boating community in Singapore to about 3,000-plus and The Boat Shop Asia has some activities planned such as convoys to surrounding areas

like Indonesia. He also aspires to create a network of marinas in the region to enable more people to charter boats at a wider selection of locations.

"We hope to also grow the boating community in Malaysia and expand our convoys," he said.

Clement disclosed that one of the key challenges in growing the boating lifestyle is creating awareness of boat chartering. While people are aware of the standard boat charter with a skipper, many do not realise that they

In 2013 when I got my license, there were about 20,000 people with licenses and only around 1000+ pleasure crafts in Singapore. My wife saw the business opportunity immediately.

can charter their own boat to skipper, provided they get licensed.

In Malaysia, a license is not required to drive a boat, but Clement points out that to be safe at sea, anyone considering a boating lifestyle should think of getting one.

"When you do the license,

the course teaches you how to navigate safely, manage situations in high or low tides and to manoeuvre the boat in unfamiliar territory like mangroves which can be very tricky," Clement pointed out.

Clement explained that while driving a boat is very similar to a car, to navigate around the port limits with shipping traffic might be challenging. He stressed that as a responsible boater, getting the license not only keeps you safe, but also the people you invite on the trip.

We advocate prevention. So we teach our students to use apps and predict the weather and not go out if a storm is anticipated. The course also teaches you how to predict the weather, so you are not caught in a storm, however weather cannot be controlled, so the course teaches you how to manage the vessel in a storm, and navigate safely back to the marina. Once you are in the marina, generally it is safe because the waters are calmer.

The Boat Shop Asia's licensing course is based on International Yacht Training (IYT)

and as the authorised trainer in Malaysia, the organisation has licensed close to 50 people since commencing operations barely a year ago. The license is recognised in Europe, US and Australia, and costs RM3,999. It runs once a month and requires a minimum of seven to eight people.

A BOATING LIFESTYLE WITHOUT OWNING A BOAT

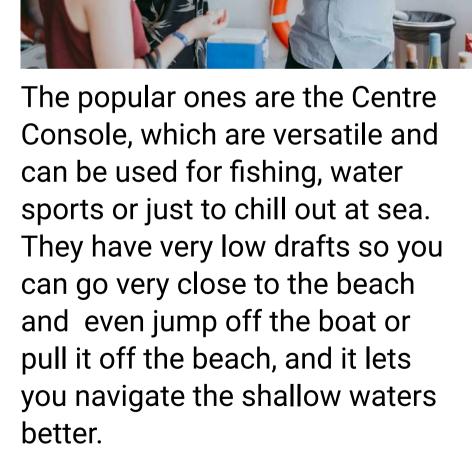

The Boat Shop Asia offers the exclusivity of enjoying the boating lifestyle minus the associated costs attached to owning a boat.

The boat charter business is typically targeted at people who have completed the course only, and not the general public. The model is based on interested boaters completing their course first, then they can charter at one of the charter locations. They can take the boat out to sea and return it at the end of the charter period.

"All our course completers are privy to exclusive boat rental privileges so they can enjoy the perks and glamour of owning a boat and taking it out to sea, but not be burdened by the maintenance of it," explained Clement.

This privilege lowers the entry barrier, broadening the market for more boat enthusiasts to try their hand at boating. The affordable rental costs can also be easily shared among friends. However, those interested can buy their own boat too.

"There are ranges of boats out there, but we typically focus on the smaller boats," said Clement.

FRIDAY DEC 23 2022 Invest | 49

There's also the Cabin Cruisers, which have toilets and some even have air-conditioning. These are best for families with children since the cabin allows you to keep the children inside when conditions are not suitable to be on deck.

"There are other types of boats as well, like the Catamarans which are double hulled boats with a large real estate.. There are also Fly Bridges, similar to Cabin Cruisers but they are two-storeys as well so you can drive upstairs and relax downstairs," Clement explained.

The Boat Shop Asia requires its charterers to first sit through a course before taking the boat out. At the more luxury extreme are the Superyachts, over 100 feet of floating real estate.

FRIDAY DEC 23 2022 **Invest** | 50

The Boat Shop Asia sold about four to five boats in Malaysia during the pandemic, and it more than doubled last year to 12 boats. This year, as borders reopened and travel seemed to top the personal agenda, sales dropped to about five.

Nonetheless, Clement finds that interest is rising among the hobbyists seeking boats to indulge in their passion for fishing, diving and other water sports. An emerging category are those who just enjoy chilling out at the ocean. This category may not use the boat as much, perhaps a weekend or two out, where they invite family or friends to just have some fun at sea.

"Another rising category is the Superyachts. Sales have increased in this category recently," he added.

"We don't just charter our boats out to just about anyone. It's targeted at that 50 to 60 people with the passion and perseverance to go through the boating course, and only then are they ready to skipper the vessel," Clement explained.

FRIDAY DEC 23 2022 Invest | 51

However, he added that he is also initiating boat charters with a skipper to selected destinations, like Pulau Ketam and for fishing trips. This will open up the market to those who have not taken its boating course and give them an opportunity to try out boating before embarking on the course.

CHECKLIST FOR BOAT SHOPPERS

Thinking of taking the plunge and owning a vessel? Here's what you should look out for:

1. What's the boat for?

The type of activities you intend to use the boat for will determine what type of boat you should get. If your use is water skiing, you need to look at a fast boat.

2. What is your budget?

The size of your budget will determine the size of your boat. For the same purpose of water skiing for example, your budget will determine if you should get a 15ft or 30ft boat. It will also determine if you should go for a new boat or second hand.

3. What are the running costs involved?

Deciding the types of running costs you can afford involves decisions like which marina to dock the boat. In Port Klang, choices are limited, while Port Dickson has a larger number of marina options.

4. How to store your boat?

Decisions on whether to put it on the dry land or wet docked have a significant cost impact. Boats in the wet tend to cost more for maintenance in the long run. Wet docked boats require anti-fouling paint on the bottom of the boats which costs about RM2,000 for a 20-30 footer, once every 2 years.

5. What engines to look for?

There are two types of engines, petrol and diesel. The petrol engines need to be serviced once every 100 hours of use or once a year at least, while diesel is longer – 250 hours at least. Servicing costs start at about RM500 and vary according to the age of the engine. However if there is water damage, an overhaul is required. In newer engines, there is usually a warranty that covers this.

For a second-hand boat, you can look to anything from RM100,000 to RM1 million or more. The prices vary depending on the size of the boat, the equipment and its beam (the greatest breadth of the boat). The bigger the beam, the bigger real estate you get on board. Similar to cars, the brand of manufacturer also contributes to its price tag.

For a brand new boat, do be prepared to invest at least RM500,000. The Boat Shop Asia has a range from Europe called Quicksilver that retails as low as RM200,000 for a 15-feet boat, trending upwards to RM1 million for bigger boats of 30-feet.

According to Clement, for a beginner, smaller boats with less moving parts are the best to start with so the main focus for maintenance will only be the engine.

"If you are new to boating, get a new boat because there are fewer issues and get a smaller boat because it is easier to maintain and costs are low," Clement advises.
